

Homemade bird feeders

What You Need

- Empty juice carton
- Paint
- Paint brushes
- String
- Scissors
- Bird seed

Instructions

1. Take a clean juice container and cut the middle of each side out.
2. Use the paint and paint brushes to decorate the container and then let it dry.
3. Once the paint has dried make a small hole through the top and thread some string through and tie it into a loop.
4. Put the bird seed into the bottom of the carton and hang somewhere for the birds to enjoy.
